Positive Behavior

Basic learning concepts:

- Its normal for children to misbehave because they are learning how to understand the world and how to relate to others.
- Discipline is a way to calm down and teach children how they should behave at different ages and situations.
- Parenting styles influence the behavior of children.

Parents should always praise their children:

- Immediately after good behavior
- After all good behaviors and NOT just the exceptional behaviors
- For the way she/he did things and the effort the child made
- With a smile, a pat on the back, a hug, leaving notes under the pillow
